MADE IN **HOLLAND**

Quality since 1976

Ever since 1976, Reginox has led the way in quality and innovation in sinks and worktops for the kitchen, project and healthcare markets. We design, develop and produce these products in-house, in numerous styles and versions.

We also supply matching taps and accessories. With our modern machinery we manufacture more than 1000 different sinks for the national and international markets.

Through continuous innovation and responsible production, always keeping an eye on our people and the environment, Reginox has a leading position in the global market. With our own offices in England and Singapore, Reginox is a international player on the kitchen market.

Environmental friendly stainless-steel

Our stainless-steel products are distinguished by a good balance between form and function. In addition, in our production process we use high-quality materials and modern deep drawing techniques. Also in the process from transport to aftercare, we strive for quality and customer satisfaction.

Of course, we also have an eye for sustainability. Our sinks, for example, consist of 80% recycled steel. We are also committed to keeping our energy consumption to a minimum.

FRIDINOX

NEW YORK COMFORT

STYLE, LUXURY AND COMFORT

Some people see New York as one of the most vibrant and most exciting cities in the world. It leads the way with its style, luxury and comfort. You will see these characteristics in the New York range by Reginox. These design sinks have a sleek and modern design, they are deepdrawn without any welding or folded seams. And the comfort plug waste outlet not only adds to the sleek appearance of the whole sink but also means that there is less chance of leaks and bacteria build up.

REGINOX

NEW YORK ROUND

NEW YORK'S LATEST ADDITION

Our New York family has a new member! Naturally this New York is also deepdrawn out of one piece of stainless-steel and provided with our trusted comfortplug. The New York Round has a horizontal spiral overflow and has a diameter of 42 cm. With this addition to our New York series we provide an even wider choice. You can install this sink as inset, semi-integrated (flush with the worktop) or undermount and therefore always a match!

NEW YORK **PVD**

STYLE WITH A COLOUR

Go for our New York 40x40 or 50x40 in Gun Metal Silver, Copper Rose or Gold Flax. These New York sinks retain their usual quality and comfort, and feature the same sleek design thanks to our deep-drawing technology and high-grade stainless steel. On top of that, they don't have any welding or folding seams, and the overflow and comfort plug have a matching colour. Thanks to the beautiful colours and the aesthetically pleasing design, these sinks offer the best of both worlds! The New York PVD sinks are excellently suitable for combination with our PVD taps.

NEW JERSEY

A LITTLE LESS DEEP

Just as New Jersey is the geographical extension of global city New York, the New Jersey line is an extension of our bestseller: the New York sink. The New Jersey is also a very modern design sink with an internal and external radius of 10 mm and a deep-drawn plug. The difference lies in the slightly smaller horizontal depth (37 cm instead of 40 cm). This means the New Jersey makes it even easier to fit taps in worktops of 60 cm deep.

CLEAN & CARE

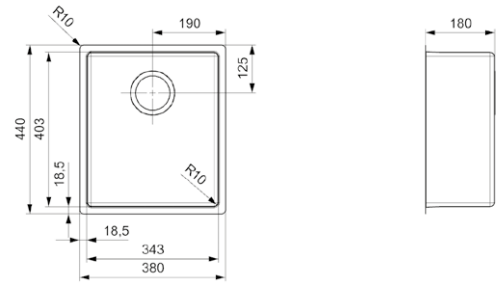

EVERYTHING IS ABOUT HYGIENE

The Clean and Care collection has been especially designed by Reginox for environments where stainless-steel sinks are mandatory. These include for example dentists, hospitals and medical practices. With a Clean and Care sink, hygiene and practicality are our top priorities.

As our Clean and Care units are produced without an overflow and varying plug options, our models can be produced using 304 stainless steel as standard or in 316 stainless steel.
